Rolling & Folding Blueprints

Envelope-Style Wall Flower Vase

- Refer to •1• through •4• in the Step-by-Step for general vase directions.
- Roll, Cut, Fold, Pinch & Mold From Here
Roll and cut the clay to a square. Turn the square to form a diamond shape. Imagine the center point of that diamond. Make fold #1 by bringing the left point loosely to the imaginary center of the diamond. Repeat with fold #2 bringing the right point of the diamond to the center. Repeat with fold #3 from the bottom to the center. Square the bottom flap over the side flaps and gently secure by pressing the three flaps together along the outer seams. In this case leave the seams visible, like a paper envelope. Mold for desired vase girth.
- Return to •6• in the Step-by-Step.
